EDUCATION

Dev Bootcamp
March 2014–June 2014
9-week intensive web development program, preceded by 12 weeks of remote prep work. Learned and practiced Ruby on Rails, OOP, JavaScript, TDD, Git and Source Control, and Agile Web Development.

University of Texas at Austin
Bachelor of Arts, December 2010
Major: Biology
Minor: Psychology

EXPERIENCE

Girl Develop It
Assistant Organizer, Instructor, TA
June 2014 – Present
Organize and promote upcoming events for the Chicago chapter. Secure instructors, TAs, and venues for classes that foster a welcoming environment for women to learn about web development and design. Teach and assist courses in the Chicago area.

Dev Bootcamp
Remote Coach
June 2014 – Present
Remote coach for Dev Bootcamp NYC. Facilitate pair programming sessions with students on requested topics. Provide additional instruction and code reviews and respond to help requests.

Hope for Humans
Project Coordinator
December 2012 – June 2013
Coordinated efforts between US and Uganda headquarters. Traveled to Uganda to help monitor operations abroad and attend local meetings. Managed administrative duties, email marketing efforts, and maintenance of social media accounts.

LMG Communications
Account Executive
July 2012 – December 2012
Worked with clients and agency principal to develop and implement client PR goals. Composed press releases, media pitches and web content.

UT Health Science Center
Research Associate
January 2011 – June 2012
Conducted psychiatric diagnostic interviews, neuropsychological assessment, and threat assessment in a longitudinal study of the development of impulse control and suicidal behaviors among a large (N = ~400) sample of adolescents receiving inpatient psychiatric care (R01-MH081181).
